Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary)

We currently have planning board approval and a structural revision permit and the remaining plans are final stages of approval. Unfortunately, our overall building cost have far exceeded our original numbers that were based on our early concept plans. The existing building infrastructure has pretty much been deemed unusable, the structural integrity of the building while sound has created many obstacles to overcome, specifically in the HVAC and plumbing categories. In addition the aforementioned, the level of fit and finish we are having to obtain to be competitive in the market has also exceeded our expectations. We initially had no intention to seek support for this project, we have invested a lot of time, energy, and resources to bring this project to life. We have looked at this project many different ways and have determined that the project is just not financially viable without agency support.

Please confirm by checking the box, below, if there is likelihood that the Project would not be undertaken but for the Financial Assistance provided by the Agency
