**Hon. Anthony Caruana - Supervisor, Town of Tonawanda – See attached letter of Support.**

**John Hannon – Triad Recycling & Energy – This purchase of 15 acres and expansion is an actual expansion of our 8 acre facility where we are recycling thousands of tons of construction debris formerly going into a landfill. We envision the project in four phases where we are able to do the project economically, add employees and make improvements to the site. We will continue to work very closely with the Town Building Department and the Department of Environment & Conservation to figure out how to do each one of these streams. And it's significant that we have been the first one in New York State to recycle successfully a number of materials. One of the phases in the expansion is actually a public drop off area. We found many people would like to recycle, but there are no facilities in Erie County. We think we are a good part of the community and we are very encouraged that Erie County supports this project.**

**6. ADJOURNMENT.**

As there were no further comments, the Hearing Officer closed the public hearing at 9:15 a.m.
