Acquest Development Company is a privately held, full service commercial real estate company located in Amherst, New York. Established in 1988, Acquest has had a large presence in Erie County with a variety of federal government design-build projects, as well as retail, office and warehouse flex value-add projects. Acquest recognizes the need for low rent manufacturing and office flex space for local companies who create jobs in Erie County and provides this space in two buildings located on River Rock Drive in the City of Buffalo.

Address

85 River Rock Drive

Will the completion of the Project result in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state OR in the abandonment of one or more plants or facilities of the project occupant located within the state?

No

If the Proposed Project is located in a different Municipality than that Municipality in which current operations are being undertaken, is it expected that any of the facilities in any other Municipality will be closed or be subject to reduced activity?

No

(If yes, you will need to complete the Retail Section of this application)

Buffalo

Does the Applicant or any related entity currently hold fee title to the Project site?

Yes

If No, indicate name of present owner of the Project Site

Does Applicant or related entity have an option/contract to purchase the Project site?

No

Describe the present use of the Proposed Project site

The expansion space within the building is currently vacant and will provide new jobs for Tomric Systems, a long term tenant of

the building and company within the community.

Please provide narrative of the proposed project and the purpose of the proposed project (new build, renovations, and/or equipment purchases). Identify specific uses occurring within the project. Describe any and all tenants and any/all end users: (This information is critical in determining project eligibility)

85 River Rock Drive was purchased from ECIDA in 2017. 85 River Rock Drive, formerly known as the Buffalo Free Trade Complex was built to provide low rent incubator space to companies that placed a high priority on creating jobs. BERC and ECIDA offered six incubator locations around the City of Buffalo, in which Acquest purchased the Buffalo Free Trade Complex, the Can-Am Building, and the River Rock Industrial Incubator with the goal of sustaining the low cost rental space to the best of its ability for existing and relocating local companies. The 74,000 sf building will be occupied by The City of Buffalo Clerk Records (11,000 sf) Aries Transportation (9,000 sf), warehousing for LS&S (6,000 sf), and Tomric Systems (45,000 sf).

If the Project could be undertaken without Financial Assistance provided by the Agency, then provide a statement in the space provided below indicating why the Project should be undertaken by the Agency:

The City of Buffalo City Clerk Records was unable to be relocate within the building to provide Tomric Systems with the existing Clerk Records space which has the mechanical systems and loading docks that better meet the required design of the Tomric Systems expansion. 85 River Rock Drive, LLC therefore has large costs associated with upgrading the electrical, mechanical, and loading docks in other space within the building to meet the needs of Tomric Systems expansion and operations.

Describe the reasons why the Agency's Financial Assistance is necessary and how the Financial Assistance enables the company to undertake the Project to facilitate investment, job creation and/or job retention. Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary)

The Tomric Systems expansion and renovation project requires an extensive amount of upgrades to the HVAC, electrical, and fire safety systems. The project also includes new loading docks for the manufacturing and warehouse expansion. The high costs associated with these upgrades have created a gap that would need the assistance from the agency to help with lower than expected ROI. This renovation project will help retain jobs as well as create 2 additional full time jobs for a company who has been located in and invested in the community for more than 50 years.

Please confirm by checking the box, below, if there is likelihood that the Project would not be undertaken but for the Financial Assistance provided by the Agency

Yes

If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and Erie County?

Will project include leasing any equipment?

No

If yes, please describe equipment and lease terms.

Site Characteristics

Will the Project meet zoning/land use requirements at the proposed location?

Yes

Describe the present zoning/land use

Light Industrial District The processing or manufacturing of finished products or parts from previously prepared materials including processing, fabrication, assembly, treatment, and packaging of such products, and incidental storage, sales, and distribution of such products, provided that all manufacturing processes are contained entirely within a fully enclosed building. A light industrial use may include a showroom or ancillary sales of products related to the items manufactured on-site.

Describe required zoning/land use, if different

If a change in zoning/land use is required, please provide details/status of any request for change of zoning/land use requirements

Is the proposed Project located on a site where the known or potential presence of contaminants is complicating the development/use of the property?

No

If yes, please explain

Has a Phase I Environmental Assessment been prepared, or will one be prepared with respect to the proposed Project Site?

No

If yes, please provide a copy.

Have any other studies, or assessments been undertaken with respect to the proposed Project Site that indicate the known or suspected presence of contamination that would complicate the site's development?

No

If yes, please provide copies of the study.

If you are purchasing new machinery and equipment, does it provide demonstrable energy efficiency benefits?

N/A

You may also attach additional information about the machinery and equipment at the end of the application.

Does or will the company or project occupant perform research and development activities on new products/services at the project location?

Yes

If yes, please explain.

What percentage of annual operating expenses are attributed to the above referenced research and development activities?

Select Project Type for all end users at project site (you may check more than one)

Will customers personally visit the Project site for either of the following economic activities? If yes with respect to either economic activity indicated below, complete the Retail Determination contained in Section IV of the Application.

Please check any and all end uses as identified below.

Retail Sales No **Services** No

For purposes of this question, the term "retail sales" means (i) sales by a registered vendor under Article 28 of the Tax Law of the State of New York (the "Tax Law") primarily engaged in the retail sale of tangible personal property (as defined in Section 1101(b)(4) (i) of the Tax Law), or (ii) sales of a service to customers who personally visit the Project.

Section VI: Inter-Municipal Move Determination

The Agency is required by state law to make a determination that, if completion of a Project benefiting from Agency Financial Assistance results in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state or in the abandonment of one or more plants or facilities of the project occupant located within the state, Agency financial Assistance is required to prevent the project occupant from relocating out of the state, or is reasonably necessary to preserve the project occupant's competitive position in its respective industry.

Will the project result in the removal of an industrial or manufacturing plant of the Project occupant from one area of the state to another area of the state? No

Will the project result in the abandonment of one or more plants or facilities of the Project occupant located within the state? No

If Yes to either question, explain how, notwithstanding the aforementioned closing or activity reduction, the Agency's Financial Assistance is required to prevent the Project from relocating out of the State, or is reasonably necessary to preserve the Project occupant's competitive position in its respective industry:

Does this project involve relocation or consolidation of a project occupant from another municipality or abandonment of an existing facility?

Within New York State No

Within Erie County No

If Yes to either question, please, explain

Will the project result in a relocation of an existing business operation from the City of Buffalo?

No

If yes, please explain the factors which require the project occupant to relocate out of the City of Buffalo (For example, present site is not large enough, or owner will not renew leases etc.)

What are some of the key requirements the project occupant is looking for in a new site? (For example, minimum sq. ft., 12 foot ceilings, truck loading docs etc.)

If the project occupant is currently located in Erie County and will be moving to a different municipality within Erie County, has the project occupant attempted to find a suitable location within the municipality in which it is currently located?

No

What factors have lead the project occupant to consider remaining or locating in Erie County?

If the current facility is to be abandoned, what is going to happen to the current facility that project occupant is located in?

Please provide a list of properties considered, and the reason they were not adequate. (Some examples include: site not large enough, layout was not appropriate, did not have adequate utility service, etc.) Please include full address for locations.

Section VII: Adaptive Reuse Projects

Are you applying for tax incentives under the Adaptive Reuse Program? No

What is the age of the structure (in years)? 0

Has the structure been vacant or underutilized for a minimum of 3 years? (Underutilized is defined as a minimum of 50% of the rentable square footage of the structure being utilized for a use for which the structure was not designed or intended) <BLANK>
