## **Section II: Eligibility Questionnaire - Project Description & Details**

### Project Location

**Municipality or Municipalities of current operations**

Orchard Park

**Will the Proposed Project be located within a Municipality identified above?**

Yes

**In which Municipality will the proposed project be located**

Orchard Park

**Address**

7 Centre Dr. Orchard park , NY 14127, Erie County

**Will the completion of the Project result in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state OR in the abandonment of one or more plants or facilities of the project occupant located within the state?**

No

**If the Proposed Project is located in a different Municipality than that Municipality in which current operations are being undertaken, is it expected that any of the facilities in any other Municipality will be closed or be subject to reduced activity?**

Yes

(If yes, you will need to complete the Retail Section of this application)

**SBL Number for Property upon which proposed Project will be located**

161.19-1-2

**What are the current real estate taxes on the proposed Project Site**

40,000

**Assessed value of land**

0

**Assessed value of building(s)**

0

**Are Real Property Taxes current?**

Yes

**If no please explain****Town/City/Village of Project Site**

Orchard Park

**School District of Project Site**

Orchard Park

**Does the Applicant or any related entity currently hold fee title to the Project site?**

Yes

**If No, indicate name of present owner of the Project Site****Does Applicant or related entity have an option/contract to purchase the Project site?**

No

**Describe the present use of the Proposed Project site****Please provide narrative of the proposed project and the purpose of the proposed project (new build, renovations, and/or**

**equipment purchases). Identify specific uses occurring within the project. Describe any and all tenants and any/all end users: (This information is critical in determining project eligibility)**

This project involves the construction of an approximately 11,500 sq. ft. addition to the existing manufacturing plant located in Orchard Park, New York. Enidine's current operations encompass approximately 100,000 sq.ft. and the addition will support both the engineering and manufacturing functions. Enidine is the sole tenant in the building. This new space will be used for manufacturing similar to existing energy absorption products.

**If the Project could be undertaken without Financial Assistance provided by the Agency, then provide a statement in the space provided below indicating why the Project should be undertaken by the Agency:**

The project should be undertaken by the Agency so that the financial attractiveness of an Orchard Park expansion is improved vs expanding another ITT location.

**Describe the reasons why the Agency's Financial Assistance is necessary and how the Financial Assistance enables the company to undertake the Project to facilitate investment, job creation and/or job retention. Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary)**

ITT owns several other manufacturing locations in the USA outside of NY as well as in Mexico, Europe, and Asia. Southern US, Mexico, and Asia are all low cost regions for manufacturing, therefore the Orchard Park location needs the financial assistance that this program offers to become more financially attractive. This assistance will allow the investment to be made in Orchard Park and continued job growth in Erie county.

**Please confirm by checking the box, below, if there is likelihood that the Project would not be undertaken but for the Financial Assistance provided by the Agency**

Yes

**If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and Erie County?**

If the Applicant is unable to obtain financial assistance for the project than could be a revaluation of where the additional capacity should be secured. This not only removes the opportunity for growth in employment in Orchard Park, but also will bring into question where similar product lines and future expansion opportunities should be produced that are currently produced in Orchard Park. We are up against low cost regions and wish to secure the existing production and expanded capacity in Orchard Park, NY.

**Will project include leasing any equipment?**

No

**If yes, please describe equipment and lease terms.**

#### Site Characteristics

**Will the Project meet zoning/land use requirements at the proposed location?**

Yes

**Describe the present zoning/land use**

We currently belong to an Industrial Park in Orchard Park. The board has already met and approved the variations that would be required for our expansion. These variations include the amount of feet from the road that the parking lot could start, as well as the clearance of the building edge to the neighboring business directly behind our site.

**Describe required zoning/land use, if different**

**If a change in zoning/land use is required, please provide details/status of any request for change of zoning/land use requirements**

**Is the proposed Project located on a site where the known or potential presence of contaminants is complicating the development/use of the property?**

No

**If yes, please explain**

**Has a Phase I Environmental Assessment been prepared, or will one be prepared with respect to the proposed Project Site?**

No

If yes, please provide a copy.

**Have any other studies, or assessments been undertaken with respect to the proposed Project Site that indicate the known or suspected presence of contamination that would complicate the site's development?**

No

If yes, please provide copies of the study.

**If you are purchasing new machinery and equipment, does it provide demonstrable energy efficiency benefits?**

We will be purchasing machinery as the next phase. Currently we will be expanding our electrical capacity and will be doing so in an energy efficient basis.

You may also attach additional information about the machinery and equipment at the end of the application.

**Does or will the company or project occupant perform research and development activities on new products/services at the project location?**

Yes

If yes, please explain.

This site currently staffs about 30 engineers most of whom are involved in the design, development, and testing of new and modifications of existing products. The 11K sq foot expansion will be used for the manufacturing of these products.

**What percentage of annual operating expenses are attributed to the above referenced research and development activities?**

we spend about \$4M annually on engineering including research and development, although this is housed in the existing plant, not in the expansion.

Select Project Type for all end users at project site (you may check more than one)

Will customers personally visit the Project site for either of the following economic activities? If yes with respect to either economic activity indicated below, complete the Retail Determination contained in Section IV of the Application.

Please check any and all end uses as identified below.

**Retail Sales**      No                      **Services**      No

For purposes of this question, the term "retail sales" means (i) sales by a registered vendor under Article 28 of the Tax Law of the State of New York (the "Tax Law") primarily engaged in the retail sale of tangible personal property (as defined in Section 1101(b)(4) (i) of the Tax Law), or (ii) sales of a service to customers who personally visit the Project.

## Section IV: Tenant Information

## Section V: Environmental Questionnaire

### General Background Information

**Address of Premises** 7 Centre Drive Orchard Park, NY

**Name and Address of Owner of Premises** ITT Enidine 7 Centre Drive Orchard Park, NY

**Describe the general features of the Premises (include terrain, location of wetlands, coastlines, rivers, streams, lakes, etc.)**

The facility is located on a parcel of property that gently slopes to the southwest. The surface runoff is directed away from the facility where it evaporates, percolates into the soil is collected in the on-site storm water collection system (i.e., catch basins) for discharge to a retention pond located south west of the facility. Floor drains within the building convey liquid to an on-site oil/water separator system for discharge to the local POTW. Any leaks and/or spills that occur within the maintenance building are contained on the concrete floor for immediate clean up.

**Describe the Premises (including the age and date of construction of any improvements) and each of the operations or processes carried out on or intended to be carried on at the Premises**

Facility is located in a manufacturing development and was initially built in 1987. Additional manufacturing space was added in 1989, and additional Warehouse space was added in 2008.

**Describe all known former uses of the Premises**

N/A

**Does any person, firm or corporation other than the owner occupy the Premises or any part of it?**

No

**If yes, please identify them and describe their use of the property**

**Have there been any spills, releases or unpermitted discharges of petroleum, hazardous substances, chemicals or hazardous wastes at or near the Premises?**

No

**If yes, describe and attach any incident reports and the results of any investigations**

**Has the Premises or any part of it ever been the subject of any enforcement action by any federal, state or local government entity, or does the preparer of this questionnaire have knowledge of: a) any current federal, state or local enforcement actions; b) any areas of non-compliance with any federal, state or local laws, ordinances, rules or regulations associated with operations over the past 12 months?**

No

**If yes, please state the results of the enforcement action (consent order, penalties, no action, etc.) and describe the circumstances**

**Has there been any filing of a notice of citizen suit, or a civil complaint or other administrative or criminal procedure involving the Premises?**

No

**If yes, describe in full detail**

### Solid And Hazardous Wastes And Hazardous Substances

**Does any activity conducted or contemplated to be conducted at the premises generate, treat or dispose of any petroleum, petroleum-related products, solid and hazardous wastes or hazardous substances?**

Yes

**If yes, provide the Premises' applicable EPA (or State) identification number**

NYD986948776

**Have any federal, state or local permits been issued to the Premises for the use, generation and/or storage of solid and hazardous wastes?**

No

**If yes, please provide copies of the permits.**

**Identify the transporter of any hazardous and/or solid wastes to or from the Premises**

Nexeo Solutions and Clean Harbors (Safety-Kleen)

**Identify the solid and hazardous waste disposal or treatment facilities which have received wastes from the Premises for the past two (2) years**

AES Environmental Calvert City, KY, AERC Recycling Solutions, Allentown, PA

**Does or is it contemplated that there will occur at the Premises any accumulation or storage of any hazardous wastes on-site for disposal for longer than 90 days?**

No

**If yes, please identify the substance, the quantity and describe how it is stored**

#### Discharge Into Waterbodies

**Briefly describe any current or contemplated industrial process discharges (including the approximate volume, source, type and number of discharge points). Please provide copies of all permits for such discharges**

The facility is located on a parcel of property that gently slopes to the southwest. The surface runoff is directed away from the facility where it evaporates, percolates into the soil is collected in the on-site storm water collection system (i.e., catch basins) for discharge to a retention pond located south west of the facility. Floor drains within the building convey liquid to an on-site oil/water separator system for discharge to the local POTW. Any leaks and/or spills that occur within the maintenance building are contained on the concrete floor for immediate clean up.

**Identify all sources of discharges of water, including discharges of waste water, process water, contact or noncontact cooling water, and stormwater. Attach all permits relating to the same. Also identify any septic tanks on site**

Completed discharge permit application for Erie County in spring of 2017 for discharge of waste water, cooling water, etc... and county has responded that no discharge permit is needed at this time.

**Is any waste discharged into or near surface water or groundwaters?**

No

**If yes, please describe in detail the discharge including not only the receiving water's classification, but a description of the type and quantity of the waste**

#### Air Pollution

**Are there or is it contemplated that there will be any air emission sources that emit contaminants from the Premises?**

Yes

**If yes, describe each such source, including whether it is a stationary combustion installation, process source, exhaust or ventilation system, incinerator or other source**

Facility operates under an air registration permit with the NYDEC.

**Are any of the air emission sources permitted?**

Yes

**If yes, attach a copy of each permit.**

#### Storage Tanks

**List and describe all above and under ground storage tanks at the Premises used to store petroleum or gasoline products, or other chemicals or wastes, including the contents and capacity of each tank. Please also provide copies of any registrations/permits for the tanks**

N/A

**Have there been any leaks, spills, releases or other discharges (including loss of inventory) associated with any of these tanks?**

No

**If yes, please provide all details regarding the event, including the response taken, all analytical results or reports developed through investigation (whether internal or external), and the agencies which were involved**

#### Polychlorinated Biphenyls ("PCB" or "PCBs") And Asbestos

**Provide any records in your possession or known to you to exist concerning any on-site PCBs or PCB equipment, whether used or stored, and whether produced as a byproduct of the manufacturing process or otherwise.**

**Have there been any PCB spills, discharges or other accidents at the Premises?**

No

**If yes, relate all the circumstances**

**Do the Premises have any asbestos containing materials?**

No

**If yes, please identify the materials**

## Section VI: Inter-Municipal Move Determination

The Agency is required by state law to make a determination that, if completion of a Project benefiting from Agency Financial Assistance results in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state or in the abandonment of one or more plants or facilities of the project occupant located within the state, Agency financial Assistance is required to prevent the project occupant from relocating out of the state, or is reasonably necessary to preserve the project occupant's competitive position in its respective industry.

**Will the project result in the removal of an industrial or manufacturing plant of the Project occupant from one area of the state to another area of the state?** No

**Will the project result in the abandonment of one or more plants or facilities of the Project occupant located within the state?** No

**If Yes to either question, explain how, notwithstanding the aforementioned closing or activity reduction, the Agency's Financial Assistance is required to prevent the Project from relocating out of the State, or is reasonably necessary to preserve the Project occupant's competitive position in its respective industry:**

**Does this project involve relocation or consolidation of a project occupant from another municipality or abandonment of an existing facility?**

**Within New York State** No

**Within Erie County** No

**If Yes to either question, please, explain**

**Will the project result in a relocation of an existing business operation from the City of Buffalo?**

No

**If yes, please explain the factors which require the project occupant to relocate out of the City of Buffalo (For example, present site is not large enough, or owner will not renew leases etc.)**

**What are some of the key requirements the project occupant is looking for in a new site? (For example, minimum sq. ft., 12 foot ceilings, truck loading docs etc.)**

**If the project occupant is currently located in Erie County and will be moving to a different municipality within Erie County, has the project occupant attempted to find a suitable location within the municipality in which it is currently located?**

<BLANK>

**What factors have lead the project occupant to consider remaining or locating in Erie County?**

Current production of similar product is in the location in Erie County

**If the current facility is to be abandoned, what is going to happen to the current facility that project occupant is located in?**

no abandonment

**Please provide a list of properties considered, and the reason they were not adequate. (Some examples include: site not large enough, layout was not appropriate, did not have adequate utility service, etc.) Please include full address for locations.**

no other locations in Erie County or NY. Only locations in Southern US and international low cost regions.

## Section VII: Adaptive Reuse Projects
