Ms. Fiala reviewed the proposed project involving the Agency's issuance of its taxable and/or tax exempt revenue bonds in an amount not to exceed \$9,000,000, proceeds to be used for the renovation of one 12-story tower containing 32 studio units, 106 one-bedroom units and a non-revenue producing employee unit. In addition, the property contains a management office, community room, gated resident parking lot, outdoor mezzanine common area, rear courtyard, multiple laundry rooms and five commercial spaces. The total building is just over 107,000 sq. ft. # Erie County Industrial Development Agency 2021 Proposed Budget

# A. Overview of Changes in 2021 Budget

Presented herein is the projected operating budget for the Erie County Industrial Development Agency's ("ECIDA") year ending December 31, 2021 and a three-year forecast for 2022–2024.

The ECIDA is a not-for-profit, public benefit corporation that provides tax incentives, financing programs and economic development services to Buffalo and Erie County. In accomplishing its mission, the ECIDA does not receive any operational funding from Federal, State, County or local sources. Instead, the key source of revenue for the ECIDA is the administrative fees charged to those companies that utilize its various products and services. The income that the ECIDA generates is utilized to provide salaries to its professional staff for managing various economic development programs, as well as payments for professional fees, general office expenses, public notices/marketing, building costs and other miscellaneous expenses.

For the year ending December 31, 2021, the Agency is projecting net income from operations of \$71,000. Depreciation, a noncash item, is estimated at \$120,000 and brings the budgeted operating loss to \$49,000. There is also \$896,000 budgeted for external projects, most of which will be funded with existing UDAG funds, rather than operating cash. After reserving \$2,000,000 for future projects the potential net loss for 2021 is \$2,945,000. Most of the budgeted loss would be from existing UDAG funds that have accumulated over several years.

The following significant risk factors may impact the 2021 results:

- 1. The majority of the ECIDA's administrative fee income is derived from a few large tax incentive and/or tax-exempt bond projects. The Agency does not collect a fee until the project (usually construction) is started, since many factors affect project timing. Depending on the timing of these projects, the Agency's fee income can fluctuate significantly from year to year.
- 2. Changes in the overall national and/or regional economy could result in a decrease in local investment projects that are assisted by the Agency, resulting in a corresponding decrease in administrative fee income.

The following information details the key changes in the 2021 budget compared to the 2020 projected revenues and expenses:

# A. Overview of Changes in 2021 Budget (continued)

## **Revenues:**

#### Administrative Fees (2021 Budget - \$1.80 million):

Administrative fees primarily consist of fees earned by the ECIDA through the provision of tax abatements. During 2020, administrative fees included projects such as the Seneca One Tower in downtown Buffalo, Moog in Elma, and Time Release Sciences in Lackawanna. Additionally, the Agency expects to close on two bond issuances prior to the end of 2020, which would result in fees collected upwards of \$500,000. Since some fees are recognized over multiple years (in accordance with the terms of the related fee agreements), the Agency expects to recognize roughly \$750,000 of fees in 2021 related to prior year project approvals. The budgeted figure of \$1.8 million was derived using the 2011-2020 10-year average.

The following chart summarizes the actual administrative fee revenue over the past 10 years compared to the average administrative fee for the 10-year period from 2011-2020:

## A. Overview of Changes in 2021 Budget (continued)

#### Affiliate Management Fees (decreasing 1.7% from \$414,000 to \$407,000):

Affiliate Management Fees represent salary, benefit, and facilities costs charged to ECIDA's affiliated companies (RDC & ILDC) for office space and services that ECIDA employees provide to these organizations, since they have no employees of their own. Affiliate management fees are expected to decrease in 2021 due to fewer projected hours spent on affiliates' business, coupled with increased salary and benefit costs.

#### Management Fees – BUDC (decreasing 2.5% from \$119,000 to \$116,000):

Management Fees – BUDC are salaries and benefit costs charged to Buffalo Urban Development Corporation ("BUDC") and its affiliates for services that ECIDA employees provide. ECIDA provides financial reporting, facilities management, and administrative services to BUDC as part of a shared services agreement. Management fees are expected to decrease slightly in 2021 due to a projected decrease in hours charged to BUDC's affiliates.

#### *Rental Income (increasing 16% from \$288,400 to \$333,500):*

Rental Income represents rent received by ECIDA from BUDC for office space, two facilities owned by ECIDA and other smaller agreements. Rent revenue for leased space at 143 Genesee Street is expected to remain steady at \$213,500. Rent received from the Port Terminal management agreement of \$50,000 in 2020 is budgeted at \$95,500 in 2021 based on projections from the management company. This revenue was budgeted at \$14,500 in 2020.

#### **Expenses:**

#### Salaries & Benefits (decreasing 4.2% from \$2.04 million to \$1.96 million):

The decrease in the 2021 budgeted salaries and benefits compared to the projected 2020 figures is due to employee turnover in 2020, which lead to a decrease in employee head count. We expect to maintain the vacancy until the post-pandemic economic landscape emerges. Salary increases of approximately 3% and a potential performance incentive pool calculated as 5% of total salaries are included in the budget. Compensation increases are based on an independent compensation study of ECIDA employees, comparing Agency employee salaries with other individuals in the local labor market who have similar titles and responsibilities. These adjustments, if any, will also be reviewed and approved by the ECIDA Board Compensation Committee for Executive Management and by the CEO for other staff. Annual rate increases for health care also contributes to higher employee benefit costs. As an organization of specialized professionals, salaries and benefits account for 74% of total budgeted operating expenses.

## A. Overview of Changes in 2021 Budget (continued)

#### **Professional Services (increasing 105% from \$57,000 to \$117,300):** Professional Services consist of the following:

	2021 Budget	2020 Budget	2020 Projection
Legal	\$50,000	\$50,000	\$30,000
Consultants	\$40,000	\$20,000	\$1,000
Auditing	\$27,300	\$26,500	\$26,500
Total	\$117,300	\$96,500	\$57,500

In 2021 legal expenses are budgeted at \$50,000 to reflect typical levels, as 2020 saw a decrease in overall expenses. Consultant expenses are budgeted at \$40,000, the Comprehensive Economic Development Strategy ("CEDS") must be updated in 2021. Audit costs are set to increase in accordance with the proposal approved in 2017.

## **B.** External Special Projects & Reserves for Future Projects

The ECIDA's 2021 budget currently includes \$225,000 for external projects and \$2 million allocated for potential future projects that are consistent with the ECIDA's strategic plan and the restrictions on the UDAG and/or General Funds as follows:

Project	2021 Budget	]	2020 Budget	2020 Projected Actual		
External Special Projects	\$ 225,000	\$	332,000	\$	222,000	
Industrial Land Park Grant	200,000		200,000		200,000	
Angola Ag Park Grant	100,000		100,000		864,296	
Z7+ Expense Reserve	621,319		-		5,000	
<b>Reserves for Future Projects:</b>						
Venture Capital Co-Investment	1,000,000		1,000,000		-	
Forgivable Attraction Loan	1,000,000		1,000,000		-	
Total	\$ 3,146,319	\$	2,632,000	\$	1,291,296	

External Special Project allocations of \$225,000 include organizations that have received funding in the past, such as BUDC's Buffalo Building Reuse Project (\$100,000). Agency staff also plans to continue working with community partners to establish a Minority Business Enterprise Assistance Program. These requests will be presented to the ECIDA Board for approval before funding. The Agency's annual membership expenditure with Invest Buffalo Niagara (\$75,000) will not require specific Board action. The Z7+ Expense Reserve represents the remaining funds from the Board's \$1.5 million allocation in 2016. The balance of those funds is budgeted to be spent in 2021.

\$200,000 is budgeted for Industrial Land Park, representing one-fifth of the \$1 million grant that the Board approved to ILDC for Bethlehem Steel site carrying costs. \$100,000 is budgeted for Angola Ag Park, representing one-third of the estimated carrying costs approved by the Board. The Reserves for Future Projects of \$2 million are discussed on the following pages and would also require Board approval prior to funding.

## B. External Special Projects & Reserves for Future Projects (continued)

## Venture Capital Co-Investment

### Proposal: \$1,000,000

**The Issue** – Currently, high-growth-potential companies have difficulty attracting angel or seed capital funding when they are in the earliest of their development stages. With the significant public investment in university and college research facilities and scientists, there is a need to commercialize this research in order to provide the "pay-back" on the community's investment in the form of new high-paying jobs. Currently, there is a lack of early-stage capital for venture companies located in Western New York. Meanwhile, other communities which face similar issues have been successful in utilizing publicly-sponsored funds to support new companies.

Current New York State law does not explicitly allow IDAs to make equity venture investments in private companies. In order to achieve a change in New York State law, ECIDA is working with NYSEDC and the local New York State legislative delegation to pass legislation to codify the powers and duties of an IDA to operate an equity venture program and to provide venture investment to startup entrepreneurs and private companies.

**The Proposal** – In 2015, the ECIDA began the reestablishment of its Venture Capital Fund to provide equity investments in early-stage, high-growth-potential companies. The ECIDA will partner with qualified co-investors from Erie County such as Launch NY, 43 North, Z80 Labs, and/or Rand Capital. In the past, the ECIDA has had several key economic development successes by partnering with Rand Capital, such as its equity investments in GEMCOR II, LLC and Synacor, Inc. (approximately 400 jobs combined). The ECIDA would rely upon the expertise of its partners to conduct the due diligence required to evaluate the business, structure the investment and develop an exit strategy.

Use of Funds - To make equity (stock) and/or debt project expenditures in selected businesses.

Partners - Launch NY, 43North, Z80 Labs, Rand Capital and other venture capital firms.

Approval -- The ECIDA Board would approve all project expenditures under this program.

**Consistency with Community Plans** – This strategy is consistent with the County Executive's, *Initiatives for a Smart Economy 2.0.* One of the goals outlined in the plan is as follows: "*Erie County will create Venture Fund programs and provide venture equity to local entrepreneurs through the ECIDA*".

# **B. Special Projects & ECIDA Program Allocations (continued)**

## Forgivable Attraction Loan(s)

## Proposal: \$1,000,000

**Qualification** – Businesses must be relocating to a HUD-defined distressed area or meet other HUD qualifications and provide a significant regional impact in terms of investment and/or job creation.

**The Issue** – Currently a number of communities across the nation are aggressively pursuing businesses to entice them to their region. One vehicle that communities have used to tip the relocation decision in their favor is the use of a high-impact project expenditure fund. Until 2013, the Buffalo region did not have such a program, while neighboring states were offering these programs with positive results, to Erie County's detriment.

**The Proposal** – The ECIDA would continue to fund a forgivable attraction loan fund that could aid in the attraction of key new businesses that would have a regional employment or investment impact. The attraction incentive would be structured in the form of a loan, with a portion or all of it forgiven if the company establishes their business in Erie County and meets specified investment and/or job goals. The ECIDA would work with Invest Buffalo Niagara to offer this incentive to those businesses that are the most promising and/or target the attraction loan to specific industries or regions (such as Southern Ontario). By providing this incentive, the Buffalo region would be perceived as demonstrating the community's support for the business relocation and could be the tipping point that leads to the relocation of the business as well as related "follow on" investments.

**Use of Funds** – To make project expenditures to companies located outside of Western New York to offset a portion of their investment costs in relocating. Companies assisted would be in one of the regional targeted industry sectors and have a regional employment or investment impact. The program would have a targeted maximum incentive of \$25,000 per job created.

Partners – Invest Buffalo Niagara

Approval – The ECIDA Board would approve all awards under this program.

**Consistency with Community Plans** – This strategy is consistent with the County Executive's "Initiatives for a Smart Economy 2.0" which states: "Projects assisted by the ECIDA will be those that bring outside investment and self-sustaining jobs to Erie County while strengthening the regional economic base, helping to create a more inclusive economy and leading to population stabilization throughout the area".

#### ECIDA POLICY FRAMEWORK DOCUMENT

Ms. Whyte reviewed the proposed draft "ECIDA MWBE Policy Framework" and its statement of policy, objectives, and the scope of the policy discussion questions for committee consideration.

General discussion ensued.

Recommendations were made to revise certain text contained within the "Objectives" section. Ms. Whyte also suggested that the Policy Committee consider two paths going forward, one for ECIDA procurement of goods and services, and a second path for companies applying for ECIDA financial assistance.

Mr. Lipsitz confirmed that no member objected to the foregoing, and requested that the committee continue moving forward to establish policies for the use of MWBEs in the construction phase of a project seeking ECIDA financial assistance, as well as MWBE goals for the procurement of supplies, equipment, and professional services.

Ms. McDuffie requested that, going forward, the committee consider incentives, as well enforcement, to encourage meeting MWBE goals. Ms. Smith also suggested that education and outreach will be important elements of a successful MWBE policy.

There being no further business to discuss, Mr. Lipsitz adjourned the meeting at 11:31 a.m.

The Team Center was built in 1996 and houses the Play Lab, a center for child observation and applied research, on the first floor.

The research is used to design and redesign toys, provide age grading, and approve content and products for infants to preschoolage children. Research and development support and design teams are also located on the first floor.

## Please provide narrative of the proposed project and the purpose of the proposed project (new build, renovations, and/or equipment purchases). Identify specific uses occurring within the project. Describe any and all tenants and any/all end users: (This information is critical in determining project eligibility)

UPDATE: The costs for the Fisher-Price Team Center Project have increased due to the COVID situation. Specifically, the equipment needed to support the Play Lab observation room requires the installation of data cabling to work with our existing network and the material costs have risen, again, due to COVID. The understanding is that less building supplies have been manufactured and, due to supply and demand, the costs of the materials have increased. We are also redesigning work spaces to support future business needs once we resume full occupancy. To this end, the project has received additional funding of a minimum \$600,000 with a cap of \$900,000; and an expansion of the sales tax benefit is necessary. Fisher-Price is requesting an amendment to the inducement resolution to increase the investment commitment to \$4,186,299.00 (which represents the product of 85% multiplied by \$4,925,058.00, total being the sum of the original project cost and the additional funding cap.) Also worth noting is the total number of jobs reported on the 2nd Quarter Employment Survey was 284. ORIGINAL: The Project consists of renovations to 160,000 SF of the Team Center to focus all of Mattel's Infant and Preschool toy development here in WNY. To establish Fisher-Price as the leading child development brand in the toy industry, as a culture of child observation and applied research, it is proposed to renovate the Play Lab space into a Center of Early Childhood Development Research, in addition to first floor office and meeting spaces. Improvements include equipping the facilities with observational research technology; a modular design to create naturalistic, child-friendly research environments; and an inspirational, quality atmosphere that encourages children to play. And, to cultivate inspiration for ideation and intuitive design decisions for future toys and experiences that are engaging, fun, built with layers of play and learning opportunities, and designed for our Early Childhood Development Learning Curriculum for birth to 5-year-olds, which embodies the foundation for school readiness and the life skills needed to help prepare children to succeed in the 21st century, based on educational experts and latest research. The first floor will be renovated to provide a creative workspace with new workstations in an open floor plan modeled after the second floor which was renovated in 2015. An open floor plan with collaborative workspaces nestled into the team areas will allow teams to communicate and work together effectively and productively. Updates will also include a large meeting space to accommodate Town Hall GBT (Global Brand Teams) capacity and planogram functionality. A glass-enclosed maker space will provide visibility to different stages of design, sewing room, or even packaging, activity. This project will upgrade the functionality and branded-look of the Team Center and provide a creative workspace for teams on the first floor. While Fisher-Price employs 659 people, this project only impacts the Team Center which accounts for 274 of those employees. It is our belief that the financial assistance virtually assures the investment is made in East Aurora, solidifying our existing workforce and helping to attract top talent as we bring key businesses and categories onto the East Aurora campus that were previously located in El Segundo, CA.

## If the Project could be undertaken without Financial Assistance provided by the Agency, then provide a statement in the space provided below indicating why the Project should be undertaken by the Agency:

Financial assistance is necessary as described below.

# Describe the reasons why the Agency's Financial Assistance is necessary and how the Financial Assistance enables the company to undertake the Project to facilitate investment, job creation and/or job retention. Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary)

Fisher-Price, Inc. is a division of Mattel, one that is critically important to Mattel. Given the global scale of Mattel and the number of locations and facilities around the world, one consideration for investment is always going to be the effectiveness and efficiency of the capital being deployed. Mattel has tentatively agreed to commit the necessary capital to the East Aurora campus as part of a re-organization to focus all Infant & Preschool toy development here in Western New York. However, these commitments are constantly under evaluation and reallocation across the globe is always a possibility. The participation of the ECIDA via the Sales Tax Exemption will drive further evidence of the most effective use of capital as well as the commitment of the Western New York community and separate Fisher-Price from other Mattel locations requesting investment and support.

## Please confirm by checking the box, below, if there is likelihood that the Project would not be undertaken but for the Financial Assistance provided by the Agency

Yes

#### If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and Erie County?

The impact is hard to predict, but it would raise the potential for the reallocation of funds to another Mattel facility who can demonstrate a better return on capital. If this were to happen, Fisher Price's ability to attract and retain top talent in WNY would suffer significantly - a creative and world-class work environment is now the cost of entry for the type of skills needed for such an innovative company. It is our belief that the financial assistance virtually assures the investment is made in East Aurora, solidifying

our existing workforce and helping to attract top talent as we bring key businesses and categories onto the East Aurora campus that were previously located in El Segundo, CA.

#### If yes, please explain

Has a Phase I Environmental Assessment been prepared, or will one be prepared with respect to the proposed Project Site?

If yes, please provide a copy.

Have any other studies, or assessments been undertaken with respect to the proposed Project Site that indicate the known or suspected presence of contamination that would complicate the site's development?

No

If yes, please provide copies of the study.

#### If you are purchasing new machinery and equipment, does it provide demonstrable energy efficiency benefits?

N/A

You may also attach additional information about the machinery and equipment at the end of the application.

Does or will the company or project occupant perform research and development activities on new products/services at the project location?

Yes

If yes, please explain.

Fisher-Price was a pioneer in the area of child research, using observation as a design and development tool. The Play Lab on the first floor of the Team Center is a dedicated space for early childhood development research, providing specialized testing through observation to evaluate toys and products. The research is used to design and redesign toys, provide age grading, and approve content and products for infants to preschool-age children.

#### What percentage of annual operating expenses are attributed to the above referenced research and development activities?

100% Team Center project.
