Does Applicant or related entity have an option/contract to purchase the Project site?

Yes

Describe the present use of the proposed Project site (vacant land, existing building, etc.)

Vacant Land

Provide narrative and purpose of the proposed project (new build, renovations) square footage of existing and new construction contemplated and/or equipment purchases. Identify specific uses occurring within the project. Describe any and all tenants and any/all end users: (This information is critical in determining project eligibility)

An approximately 9.12 acre vacant lot proposed to be developed with a 151,200 SF industrial speculative venture (TBD tenants). The 9.12 AC is a portion of a larger parcel which will be demised. The proposed project is in response to a public RFP issued by the ILDC which asked to provide a minimum industrial project of 120,000SF. As part of the RFP, a request made was also that the new facility would be demised as multi-tenant to potentially meet a demand for space requirements in the market. As part of the RFP materials, a study identifies this limited availability in industrial space in the WNY market which is creating a regional need. The proposed facility is as requested by the ILDC to address such concerns.

Municipality or Municipalities of current operations

N/A

Will the Proposed Project be located within a Municipality identified above?

No

Will the completion of the Project result in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state OR in the abandonment of one or more plants or facilities of the project occupant located within the state?

No

If the Proposed Project is located in a different Municipality within New York State than that Municipality in which current operations are being undertaken, is it expected that any of the facilities in any other Municipality will be closed or be subject to reduced activity?

No

(If yes, you will need to complete the Intermunicipal Move Determination section of this application)

Is the project reasonably necessary to prevent the project occupant from moving out of New York State?

No

If yes, please explain and identify out-of-state locations investigated, type of assistance offered and provide supporting documentation available**Have you contacted or been contacted by other Local, State and/or Federal Economic Development Agencies?**

Yes

If yes, please indicate the Agency and nature of inquiry below

ILDC request for RFP.

If the Project could be undertaken without Financial Assistance provided by the Agency, then provide a statement in the space provided below indicating why the Project should be undertaken by the Agency:

N/A

Describe the reasons why the Agency's financial assistance is necessary, and the effect the Project will have on the Applicant's business or operations. Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary)

The ECIDA benefits are necessary to ensure that this project is economically competitive. Additionally, the subject project has substantial costs related to brownfield clean up as well as both at-grade and underground structures in-place. The extent of these costs will not only be great but also unknown until work commences. Finally, it is typically difficult to get financing for a venture project without having tenants identified (leases or letter-of-intent executed).

Please confirm by checking the box, below, if there is likelihood that the Project would not be undertaken but for the Financial Assistance provided by the Agency

Yes

If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and Erie County?

As the Buffalo-Niagara Partnership's recent study ascertained, Western New York has been missing out on large-scale industrial projects as end-users have opted for other municipalities. Financial assistance is required to mitigate added risk of the proposed speculative development.

Will project include leasing any equipment?

No

If yes, please describe equipment and lease terms.

Site Characteristics**Is your project located near public transportation?**

Yes

If yes describe if site is accessible by either metro or bus line (provide route number for bus lines)

Project is about 0.5 miles from bus line 42.

Has a project related site plan approval application been submitted to the appropriate planning department?

No

If Yes, include the applicable municipality's and/or planning department's approval resolution, the related State Environmental Quality Review Act ("SEQR") "negative declaration" resolution, if applicable, and the related Environmental Assessment Form (EAF), if applicable.

If No, list the ECIDA as an “Involved Agency” on the related EAF that will be submitted to the appropriate municipality and/or planning department for site plan approval.

Will the Project meet zoning/land use requirements at the proposed location?

Yes

Describe the present zoning/land use

Zoned as "Bethlehem Redevelopment Area" is vacant industrial lot.

Describe required zoning/land use, if different

The project will be applying for a height variance with the City of Lackawanna as higher ceiling heights are more marketable in today's industrial facilities.

If a change in zoning/land use is required, please provide details/status of any request for change of zoning/land use requirements

N/A

Is the proposed Project located on a site where the known or potential presence of contaminants is complicating the development/use of the property?
