## **REPORTS/ACTION ITEMS/INFORMATION ITEMS**

<u>Financial Report.</u> Ms. Profic noted that there was no traditional financial report this month due to year-end audit preparations. She then provided a brief update on a few items: (1) The Finance & Audit Committee met on December 14<sup>th</sup>. The two items on the agenda were an ILDC bond recommendation and a presentation from Freed Maxick about their 2021 audit plan. Freed Maxick completed some interim work for the ECIDA, RDC and ILDC audits at the beginning of January, and the final work is set to commence on Monday, January 31<sup>st</sup>. The audits are planned to be completed in time for the Finance & Audit Committee to review and approve draft reports at their March 16<sup>th</sup> meeting with the reports coming to the Boards at the March 23<sup>rd</sup> meetings. This will allow us to have all the necessary approvals in place prior to the March 31<sup>st</sup> ABO filing deadline; and (2) While still closing out the year, she provide the Board with an update on where the ECIDA ended the year from an administrative fee standpoint. In 2021, we had \$2.4M of administrative fee revenue (approximately 133% of our budgeted amount). This was the first time we exceeded our budgeted administrative fees since 2017 and our best year from a fee revenue standpoint since 2015. Further information will be provided and discussed at the February meeting. Ms. McDuffie directed-that the report be received and filed.

<u>Governance Committee.</u> Ms. O'Keefe presented a review of the most recently completed governance committee meeting. Ms. McDuffie directed that the report be received and filed.

<u>2021 Tax Incentive Induced/Closing Schedule/Estimated Real Property Tax Impact.</u> Ms. O'Keefe presented this report to the members. Ms. McDuffie directed that the report be received and filed.

At this point in time, Mr. Emminger joined the meeting.

<u>Approval of Contract.</u> Ms. Szewczyk presented this a resolution to the members to authorize the execution of a contract with LiRo Engineers to design landscaping and historical markers/amenities for the Shoreline Trail Enhancement project in the City of Lackawanna First Ward BOA. Mr. Poloncarz moved and Mr. Johnson seconded to approve the resolution. Ms. McDuffie then called for the vote and the following resolution was unanimously approved:

## **INDUCEMENT RESOLUTIONS**

<u>791 Washington Street, LLC, 791 Washington Street, Buffalo, New York.</u> Mr. Cappellino reviewed this proposed sales tax exemption and mortgage recording tax exemption benefits project which consists of a project that was previously approved by the ECIDA Board in both 2016 and 2017. Prior approvals anticipated both the Buffalo Culinary School and an extended-stay hotel as project components for this nearly 500,000 sq. ft. facility. Due to the pandemic, the developer was forced to go through a significant redesign effort that resulted in delays and substantially higher design costs to determine how to proceed with the project. The new project plans for substantial renovation to convert the site into mixed-use including market rate housing and intends to offer 243 units with 10% (25 units) committed to workforce housing at 80% AMI. In addition, 60,000 sq. ft. will be available to businesses looking to locate on the Buffalo Niagara Medical Campus. The Project's cost benefit ratio was presented to and reviewed by the members present and the costs of incentives so applied for, the anticipated new tax revenues to be generated by the Project, as well as the Project's contemplated community benefits were discussed and considered.

Mr. Poloncarz expressed support of the project and thanked the company for sticking through with this project before and during the pandemic.

As a condition precedent of receiving Financial Assistance, and as a material term or condition as approved by the Agency in connection with the Project, the Company covenants and agrees and understands that it must, subject to potential modification, termination and/or recapture of Financial Assistance for failure to meet and maintain the commitments and thresholds as described below, through the conclusion of the later of two (2) years following either (x) the construction completion date, or (y) the termination of the Agent Agreement, a certification, as so required by the Agency, confirming:

- (i) Investment Commitment- the total investment actually made with respect to the Project at the time of Project completion equals or exceeds \$91,800,000 (which represents the product of 85% multiplied by \$107,950,000, being the total project cost as stated in the Company's application for Financial Assistance).
- (ii) Employment Commitment that there at least 4 (four) full time equivalent ("FTE") employees in the Facility as stated in the Company's Application for Financial Assistance as described below:
  - the number of current FTE employees in the then current year at the Facility; and
  - that within two (2) years of Project completion, the Company has maintained and created FTE employment at the Facility equal to 4 (four) FTE employees [representing the product of 85% multiplied by 5 (being the 5 new FTE employee positions proposed to be created by the Company as stated in its Application)]. In an effort to confirm and verify the Company's employment numbers, the Agency requires that, at a minimum, the Company provide employment data to the Agency on a quarterly basis, said information to be provided on the Agency's "Quarterly Employment Survey" form to be made available to the Company by the Agency.

## TO:ECIDA Board of DirectorsDATE:February 23, 2022RE:Amended and Restated Countywide Industrial Development Agency Uniform<br/>Tax Exemption Policy Draft

Under Title 1 of Article 18-A of the General Municipal Law of the State of New York (the "GML"), as amended, and Chapter 293 of the Laws of 1970 of the State of New York, as amended, the Erie County Industrial Development Agency (the "Agency") was created and authorized (1) to promote the economic welfare, recreational opportunities and prosperity of the inhabitants of the Erie County (the "County"), and (2) to actively promote, attract, encourage and develop recreation and economically sound commerce and industry through governmental action for the purpose of preventing unemployment and economic deterioration.

Section 874 of the General Municipal Law of the State of New York (the "GML") requires that each industrial development agency ("IDA") establish a uniform tax exemption policy ("UTEP"), with input from affected tax jurisdictions, which shall be applicable to the provision of financial assistance pursuant to Section 859-a of the GML and shall provide guidelines for the claiming of real property, mortgage recording, and sales tax exemptions (collectively, "Financial Assistance").

In 2001, the Agency and the Town of Amherst IDA, the Town of Lancaster IDA, the Town of Clarence IDA, the Town of Hamburg IDA, and the Town of Concord IDA collectively adopted a Countywide Industrial Development Agency Uniform Tax Exemption Policy, which was subsequently amended in January of 2010 (the "Existing UTEP"). Related thereto, the Agency also approved two amendments to the Existing UTEP, the first being an amendment to the Hotel/Motel Policy in 2012 and the second being an amendment related to For-Profit Market Rate Rental Senior Citizen Housing Policy in 2015.

Since 2013, the GML has been amended several times by reinstating certain retail restrictions, and by establishing new procedural and transparency requirements and certain provisions allowing for the recapture, modification, and termination of IDA Financial Assistance. More recent GML amendments altered the types of projects eligible for Financial Assistance, for example, various renewal energy projects are now defined to be permissible projects. In consideration of the foregoing, it was determined that the best path forward would be to undertake a fresh rewrite of the Existing UTEP instead of otherwise amending the Existing UTEP.

<sup>95</sup> Perry Street, Suite 403 • Buffalo, New York 14203 • ph. 716.856.6525 • fx. 716.856.6754 • www.ecidany.com

## Several key principals of the overall UTEP rewrite (the "New UTEP") included:

- Maintaining a baseline "Countywide Policy" for all the IDAs within Erie County, that also allows for each IDA, if desired, to adopt unique requirements or policies specific to an individual IDA, i.e. pay equity policy, local labor policy, senior housing policy, by way of example.
- Simplifying the Existing UTEP making it easier to understand and implement.
- Referencing relevant sections of the GML, for specific requirements instead of reciting entire sections of the GML within the New UTEP, so that the New UTEP would not necessarily inadvertency outdate itself when the GML is amended going forward.
- Continuing the utilization of a Tiered PILOT structure requiring projects to be scored based on established criteria and assigned to a PILOT Tier, whereby projects scoring in the upper tier become eligible for a PILOT having a greater total abatement than a project scoring in a lower tier. Related thereto, the following elements drove the establishment of the various Tiered PILOT schedules:
  - PILOT Schedules would not have any 100% abatement years, so that there would be PILOT revenue realized by the taxing jurisdictions each year.
  - To the extent possible, establishing PILOT schedules having annual payment increases

## **Summary of New UTEP Sections:**

## Section I: Eligible Applicants/Projects

- A. The Eligible Applicants section was changed from a NAICS based system to a simplified business activities system, to include commercial business activities, manufacturing and advanced manufacturing activities, warehousing and distributive services activities, and back-office activities. The NAICS system was confusing and outdated due to amendments to the GML. As an example, many of the NAICS categories defined in the Existing UTEP as potentially eligible were no longer eligible due to the retail restrictions. A new "Renewable energy and electric energy storage" activity was added to conform with 2021 GML amendments specifying an IDA's role in supporting these types of projects in furtherance of New York's renewable energy goals.
- B. A new Retail Business section was added confirming that retail projects are generally ineligible and cites to Section 862 of the GML for specified exceptions.

95 Perry Street, Suite 403 • Buffalo, New York 14203 • ph. 716.856.6525 • fx. 716.856.6754 • www.ecidany.com

- C. A new special projects section was added to outline requirements for mixed use projects containing a mix of retail and other non-retail uses citing to restrictions in Section 862 of the GML and allowing for additional requirements established by each individual IDA. Specifically, this section:
  - 1. Maintains the Adaptive Reuse program and requirements under the existing terms and conditions; and
  - 2. Maintains the Continuing Care Retirement Community project category (for example, Canterbury Woods) as permitted under New York Law and cites to the applicable GML sections.

## Section II: Exemption from Real Property Taxes: Payments in Lieu of Taxes

The Tiered PILOT incentive concept remains in the New UTEP, however the number of tiers, the PILOT schedules, and the tier scoring system are being amended. Major changes include:

- 1. Elimination of the Ten-Year Enhanced Jobs Plus PILOT schedule.
- 2. Addition of a new Five-Year PILOT schedule intended for smaller redevelopment, potentially mixed-use projects.
- 3. Creation of a new Renewable Energy PILOT to support renewable energy projects, establishing a baseline PILOT framework but allowing for each IDA to adopt their own specific requirements (see, for example, the new ECIDA Community Solar Policy).
- 4. Adjustments to the various PILOT schedules to minimize multiple years with the same PILOT abatement percentage, and establishing new schedules, to the extent possible, having year over year increase in PILOT payments.
- 5. Updates to the Tiered PILOT scoring sheet used to score projects for the appropriate PILOT tier.

## General Revisions:

Sections III, IV, V, VI and VII of the New UTEP, except for formatting and minor language modifications, remain the same as those provisions/concepts contained within the Existing UTEP.

There are some sections of the Existing UTEP that have been removed because such sections are now outdated and/or irrelevant due to changes to New York State law. The Existing UTEP had specific sections on Medical Projects, Hotel and Motels, and Neighborhood Enhancement Areas which were all rendered irrelevant due to the reinstatement of Retail Restrictions in 2013, having been theretofore eliminated in 2008 by certain sun-setting GML provisions.

In addition, the Adaptive Reuse policy was revised to allow each IDA to adopt its own Adaptive Reuse Policy program, as a separate addendum to the UTEP, if so desired. This will be the same approach to be used relating to some of the policies unique to the Agency, for example, the Pay Equity Policy, the Unpaid Real Property Tax Policy, the For-Profit Senior Housing Policy, and potentially the new MWBE Policy which will be added as addendums to this baseline New UTEP by the Agency upon the Agency's approval of this New UTEP, as so amended and restated and as briefly described herein.

The 2016 revisions to the GML also mandates certain specific requirements and information be included in IDA applications and IDA project agreements, some of which were already included within the Existing UTEP. These provisions were removed from the Existing UTEP but, as so required by the GML, are now included as component parts of the Agency's application and project agreement. This includes our material terms and conditions, our recapture policy language and applicant certification statement requiring applicants to certify to the truthfulness and accuracy of information disclosed within the application under penalty of perjury.

## **Countywide Industrial Development Agency Uniform Tax Exemption Policy**

Town of Amherst Industrial Development Agency, the Town of Clarence Industrial Development Agency, the Town of Hamburg Industrial Development Agency, the Town of Lancaster Industrial Development Agency and the Erie County Industrial Development Agency

Amended and Restated as of \_\_\_\_\_, 202\_\_\_

The declared policy of New York State is to promote the economic welfare, recreation opportunities and prosperity of its inhabitants, and to promote, attract, encourage and develop recreation, and economically sound commerce and industry through governmental action for the purpose of preventing unemployment and economic deterioration by the creation of industrial development agencies ("IDA"). IDAs are empowered to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of industrial, manufacturing, warehousing, and commercial facilities and thereby advance the job opportunities, health, and the general prosperity and economic welfare of the people of New York State and to improve their recreational opportunities, prosperity and standard of living.

IDAs are empowered to carry out these statutory purposes by providing for the claiming of real property tax abatements and exemptions from sales, use, and mortgage recording tax, and the issuance of tax exempt bonds (collectively, "Financial Assistance"). The IDAs in Erie County have adopted this Uniform Tax Exemption Policy (the "Policy") to provide for uniform policies for the claiming of IDA Financial Assistance.

Pursuant to the authority vested in it by Article 18-A of the General Municipal Law of the State of New York, an IDA is authorized to establish guidelines and policies for the evaluation and selection of projects for which Financial Assistance will be provided, the suspension, discontinuance, or modification of real property tax abatements, and the recapture of all or part of the Financial Assistance as a consequence of job creation/retention shortfalls or other material violations of the terms and conditions established for the provision of Financial Assistance. Each applicant for Financial Assistance should consult with the appropriate individual IDA to confirm such an IDA's relevant guidelines and policies.

## I. Eligible Applicants/Projects

A. By way of example only, Applicants involved in the following business activities may be eligible to apply for Financial Assistance:

- 1. Commercial activities
- 2. Manufacturing/Advanced Manufacturing
- 3. Warehousing/Distributive Services
- 4. Back office (headquarters, data and call centers)
- 5. Renewable energy and/or electric energy storage<sup>1</sup>

<sup>&</sup>lt;sup>1</sup> Renewable energy and/or electric energy storage projects will be evaluated based upon consideration of evaluative criteria which are appropriate for such projects particularly where the goals of the project may be broader than typical job retention and creations goals.

B. **Retail Business.** Only certain Retail Business projects may be eligible to receive Financial Assistance in compliance with Section 862 of the New York General Municipal Law ("GML"). Applicants are strongly encouraged to consult Section 862 of the GML and the appropriate individual IDA if a proposed project involves the sale of goods or services to customers who personally visit the project site.

C. Special Projects. Applications which contain a mix of retail uses and other non-retail uses (a mixed use project) must comply with Section 862 of the GML and meet additional requirements, if any, as established by each such IDA.

Adaptive Reuse Project/Neighborhood Enhancement Area Project. 1. Adaptive Reuse Projects/Neighborhood Enhancement Area Projects will be evaluated based upon consideration of evaluative criteria which are appropriate for such projects particularly where the goals of the project may be broader than typical job retention and creation goals. IDA Financial Assistance may be provided to an Adaptive Reuse Project that involves adapting old structures or sites for new purposes, including but not limited to, potentially a mix of retail uses (in compliance with Section 862 of the GML) and commercial uses, and/or market rate or below market rate housing, and/or as otherwise permitted under any exception or amendment to this Policy for each individual IDA. An Adaptive Reuse Project is one that will benefit the host municipality and Erie County by redeveloping a blighted site or structure, promoting infill development utilizing existing infrastructure, creating new economic activity at difficult sites and buildings thus helping to eliminate neighborhood slum and blight, promoting re-use of existing buildings and sites, and helping to maintain a neighborhood's fabric. Adaptive Reuse Projects prevent economic deterioration and promote employment opportunities. IDAs may also provide Financial Assistance, as determined by each such IDA, to projects that are retail or have retail components, in compliance with Section 862 of the GML, if the project is located in or contemplating relocating to areas within Erie County that are designated, by the respective municipal legislatures, as Neighborhood Enhancement Areas.

2. Additional Commercial Special Projects. Continuing Care Retirement Community Project as permitted under Sections 854(19) and 859-b of the GML.

## II. Exemption from Real Property Taxes: Payments in Lieu of Taxes

The IDAs maintain a policy for the provision of real property tax exemptions with a corresponding Payment In Lieu Of Tax Agreement ("PILOT Agreement") to provide a real property tax abatement for qualified projects. Each project receiving an abatement from real property tax will be subject to a PILOT Agreement in a form proscribed by the IDA. Such PILOT Agreement will also require payment of any and all special district assessments.

The calculation of the amount of the PILOT payments, and the amount of such payments, is not set forth in statute. The PILOT Agreement payment schedules contained within this Policy establish a varied real property tax abatement schedule to incentivize certain investments over others. In this manner, projects that meet all or some of the region's planning and economic development goal criteria will be rewarded with a more beneficial real property tax abatement schedule in comparison to those projects that meet less of the region's planning and economic development goal criteria. To meet this goal, a four-tiered PILOT incentives schedule will be utilized. Consideration of the following "PILOT Tier Criteria" will be utilized in analyzing and selecting the appropriate tiered PILOT schedule to be utilized for each particular project: (i) capital investment, (ii) employment creation and employment retention, (iii) consistency with regional and community based planning, and (iv) overall community benefit.

Below is a listing of the current tiered PILOT schedules:

## A. Tier 1: Five Year PILOT Schedule

A five year PILOT Schedule will be applied to projects that score at the Tier 1 level based upon application of the PILOT Determination Scoring Worksheet.

Year	1	2	3	4	5
% Abatement	75%	65%	55%	45%	35%

## B. Tier 2: Seven Year PILOT Schedule

A seven year PILOT Schedule will be applied to projects that score at the Tier 2 level based upon application of the PILOT Determination Scoring Worksheet.

Year	1	2	3	4	5	6	7
% Abatement	95%	90%	85%	80%	75%	70%	65%

## C. Tier 3: Ten Year PILOT Schedule

A ten year PILOT Schedule will be applied to projects that score at the Tier 3 level based upon application of the PILOT Determination Scoring Worksheet.

Year	1	2	3	4	5	6	. 7	8	9	10
% Abatement	95%	90%	85%	85%	80%	80%	75%	75%	70%	65%

## D. Tier 4: Renewable Energy PILOT Schedule

A PILOT Schedule unique to renewable energy projects that may or may not also have an electric energy storage component is available to support statewide renewable energy production goals, currently established at achieving 70% renewable electricity production by 2030. With respect to a renewable energy project, an IDA, in its sole discretion, may authorize a payment in lieu of taxes agreement for up to a twenty-five (25) year benefit period, and shall calculate such payments based upon a formula expressed as a dollar value per Mega Watt (MW) multiplied by the total MW(s) to be generated by such a project. A determination to grant a Renewable Energy PILOT containing terms consistent with the provisions described within this section shall not be considered a deviation from this Policy.

## III. Exemption from Sales and Use Taxes

The IDAs maintain a policy for the provision of sales and use tax exemptions, being a 100% exemption from the New York State and local sales and use taxes related to the acquisition, construction, re-construction and equipping of any approved project, inclusive of rentals and all other elements of the Project qualifying for exemption. In coordination with an IDA, an Applicant must confirm the amount of sales and use tax exemption in connection with a qualified project. Operating and maintenance expenses are not eligible for a New York State and local sales and use tax exemption benefit.

## IV. Exemption from Mortgage Recording Taxes

The IDAs maintain a policy for the provision of a mortgage recording tax exemption that permits a mortgage recording tax exemption on a portion of the New York State Mortgage Recording Tax in Erie County, statutorily limited to .0075% on any commercial mortgage or security instrument arising out of or related to the financing or refinancing of an approved project.

## V. Deviation from the Uniform Tax Exemption Policy

The following constitutes the procedure for deviation from this Policy, as required pursuant to Section 874(4)(b) of the GML. An IDA may authorize a deviation from the Policy after it: (i) provides prior written notification to the affected taxing jurisdiction(s) of the proposed deviation from the Policy and the reasons for the deviation from this Policy including articulated consideration of the issues identified in Section 874(4)(a) of the GML, and (ii) sets forth in writing the reasons for deviating from the Policy.

## VI. Intermunicipal Movement of Facility or Plant

If a project involves the removal or abandonment of a facility or plant within the state, adherence to Section 862 of the GML is required prior to making a Financial Assistance determination.

If a project involves the relocation from one municipality within Erie County (the "Current Municipality") to a different municipality also within Erie County (the "Proposed Municipality"), the IDAs in Erie County set forth the following additional procedures:

A. Upon receipt of a draft application or sufficient materials from a prospective applicant, the relevant IDA with jurisdiction over the Proposed Municipality shall notify the designated economic development representative from the Current Municipality of the pending project unless there is reason the project remain confidential. Upon receipt of a completed Application for Financial Assistance, the IDA will forward a written notice to the chief elected officer of the Current Municipality and the Proposed Municipality (along with their respective economic development designees), which notice shall include (i) said Application, (ii) sites located in the Current Municipality that were considered by the applicant, along with the reasons for rejecting those sites, and (iii) such other information or documentation with regard to the proposed relocation as the IDA may be in possession of.

B. If the applicant declines to respond to such questions regarding its proposed move or indicates that it has not met with representatives of the Current Municipality or reviewed/considered alternative sites within the Current Municipality, the applicant will be strongly urged by IDA representatives to do so prior to final submission of the application, and a determination of said application being considered complete, for consideration of Financial Assistance.

C. A written response or acknowledgement from the chief elected officer of the Current Municipality will be sought with regard to the application for Financial Assistance, and any such response or acknowledgement will be included in the record to be considered by the \_IDA which has jurisdiction over the Proposed Municipality. This need not be a "sign-off" or an approval of the intermunicipal move. The chief elected officer of the Current Municipality and the Proposed Municipality (and their respective economic development designees) will be invited to address the IDA Board when it considers any such application for Financial Assistance.

## VII. IDA Leadership Council

On an as needed basis, a leadership council meeting of the IDAs may be convened to encourage further collaborative efforts, to facilitate the uniform implementation of this Policy, and to provide a forum to address other common concerns with regard to economic development in Erie County. Each IDA signatory to this Policy may permit a representative to attend such a meeting, when such a meeting is convened, provided that such individual represents an IDA, a municipality for whose benefit an IDA was created, and/or any other economic development/community organization. The leadership council will, through the consensus of its members, consider and resolve any concerns raised by an IDA with regard to the interpretation of the Policy, and will coordinate other joint activities of the IDAs to promote a countywide program of economic development.

## VIII. Effective Date

This Uniform Tax Exemption Policy shall be effective as of *{insert adoption date}*, and shall apply to all projects for which an IDA has adopted or adopts an Inducement Resolution after *{insert adoption date}*, however, it shall not apply to projects for which an IDA, through issuance of its bonds, execution of leases, or the passage of an Inducement Resolution, has authorized any assistance prior to *{insert adoption date}*, whether or not such projects are thereafter refinanced or modified.

## IX. Amendments

An IDA, by resolution of its members, and upon notice to all affected taxing jurisdictions as may be required by law, may amend or modify this Policy as it may, from time to time, in its sole discretion determine.

## X. Policy Addendums

A. An IDA, by resolution of its members, and upon notice to all affected taxing jurisdictions as may be required by law, may approve a policy or policies unique to each such IDA as Policy Addendums that may be attached hereto and made a part hereof.

B. For Profit Market Rate Rental Senior Citizen Housing Policy enclosed within this Policy as <u>Addendum A</u>.

## XI. Changes in Law

This Policy has been developed consistent with the applicable provisions of Article 18-A of the GML existing as of the Effective Date. In the event of a change in law, rule or regulation affecting any provision of this Policy, this Policy shall be interpreted consistent with such law, rule or regulation, without giving effect to any provision in the Policy to the contrary.

## Addendum A

## Uniform Tax Exemption Policy Erie County Industrial Development Agency

## For-Profit Market Rate Rental Senior Citizen Housing Policy

Notwithstanding anything contained within the Countywide Industrial Development Agency Uniform Tax Exemption Policy to the contrary, for purposes of eligibility, "Senior Rental Housing" is defined as a multi-family housing structure where at least 90% of the units are rented to and occupied by a person who is 60 years of age or older. No benefits will be provided for units that are not available for rent as a Senior Rental Housing.

Market rate senior housing projects approved by ECIDA are eligible for a PILOT the equivalent of the 485(b) property tax incentive that includes all taxing jurisdictions, a sales tax exemption on equipment and construction materials, and a mortgage recording tax exemption. An enhanced or custom PILOT may be considered for certain small scale projects where a particular need is being filled in a small village or town that does not contain alternative senior citizen housing and where the local taxing jurisdiction has requested the enhanced or custom PILOT and there is a showing of unmet demand for senior housing within the taxing jurisdictions and no prospect of this demand being satisfied through normal market forces.

Projects will be evaluated under the following criteria:

- 1. If the project has received written support from the city, town or village government in which it is located;
- 2. The location of the project with particular emphasis on if the project is located within the town, village or city center or within a recognized hamlet.
- 3. If the project is consistent with the applicable municipal master plan
- 4. If the project advances efforts to create walkable neighborhoods and communities for seniors in proximity to important local amenities and services.
- 5. If an independent market study shows a significant unmet need in the local community or specific neighborhood where seniors are unable to find appropriate housing opportunities.
- 6. If the project is located in areas of the Community where there are significant local resident populations that are at or below the median income level as defined by a 1-5 mile radius of the project site.
- 7. If the project provides amenities that are attractive to seniors and differentiates the project from standard market rate housing apartments including but not limited to:
  - Community rooms, including social/recreational activities
  - In facility senior specific services and amenities
  - Senior oriented fixtures and safety amenities (hand-rails, ramps, elevators, safety devices etc.)
  - Security, call systems
  - On site medical services.
- 8. Impediments to the ability to conventionally finance the project and the project's rate of return.
- 9. The project is targeted at and will be at least 50% occupied by senior citizens whose income is at or below 60 to 80% of the median income for Erie County.
