NEW YORK STATE FINANCE LAW REQUIREMENTS

Permissible Contacts

Pursuant to State Finance Law §§139-j and 139-k, this Solicitation/Request for Proposal includes and imposes certain restrictions on communications between the ECIDA and an Offerer/bidder during the procurement process. An Offerer/bidder is restricted from making contacts from the earliest notice of intent to solicit Request for Proposals through the final award and approval of the Procurement Contract by the ECIDA and, if applicable, Office of the State Comptroller (“restricted period”) to other than designated staff unless it is a contact that is included among certain statutory exceptions set forth in State Finance Law §139-j(3)(a). Designated staff, as of the date hereof, is identified on page 2 of this solicitation. ECIDA employees are also required to obtain certain information when contacted during the restricted period and make a determination of the responsibility of the Offerer/bidder pursuant to these two statutes. Certain findings of non-responsibility can result in rejection for contract award and in the event of two findings within a 4-year period, the Offerer/bidder is barred from obtaining governmental Procurement Contracts. Further information about these requirements can be found at <http://www.ogs.state.ny.us/aboutOgs/regulations/defaultAdvisoryCouncil.html>.

Offer/Bidder’s Affirmation of Understanding of and Agreement pursuant to State Finance Law §139-j (3) and §139-j (6) (b)

State Finance Law §139-j(6)(b) requires that the ECIDA seek written affirmations from all Offerers/Bidders as to the Offerer’s/Bidder’s understanding of and agreement to comply with the ECIDA’s procedures relating to permissible contacts (described above) during a Governmental Procurement pursuant to subdivision three of this section. It is recommended that this affirmation be provided to the ECIDA as early as possible in the procurement process, such as when the Offerer/bidder submits its proposal or bid. Attachment A may be used to satisfy this requirement.

Offer’s/Bidder’s Certification of Compliance with State Finance Law §139-k(5)

New York State Finance Law §139-k(5) requires that every Procurement Contract award subject to the provisions of State Finance Law §§139-k or 139-j shall contain a certification by the Offerer/Bidder that all information provided to the ECIDA with respect to State Finance Law §139-k is complete, true and accurate. It is recommended that the certification be provided to the ECIDA as early as possible in the process, such as when an Offerer/Bidder submits its proposal, bid or other form of offer. Attachment B may be used to satisfy this requirement.

Offerer/Bidder Disclosure of Prior Non-Responsibility Determinations

New York State Finance Law §139-k (2) obligates the ECIDA to obtain specific information regarding prior non-responsibility determinations with respect to State Finance Law §139-j. This information must be collected in addition to the information that is separately obtained pursuant to State Finance Law §163(9). In accordance with State Finance Law §139-k, an Offerer/bidder must disclose whether there has been a finding of non-responsibility made within the previous four (4) years by any Governmental Entity due to: (a) a violation of State Finance Law §139-j or (b) the intentional provision of false or incomplete information to a Governmental Entity. The terms “Offerer” and “Governmental Entity” are defined in State Finance Law § 139-k (1). State Finance Law §139-j sets forth detailed requirements about the restrictions on Contacts during the procurement process. A violation of State Finance Law §139-j includes, but is not limited to, an impermissible Contact during the restricted period (for example, contacting a person or entity other than the designated contact person, when such Contact does not fall within one of the exemptions).

As part of its responsibility determination, State Finance Law §139-k (3) mandates consideration of whether an Offerer/bidder fails to timely disclose accurate or complete information regarding the above non-responsibility determination. In accordance with the law, no Procurement Contract shall be awarded to any Offerer/bidder that fails to timely disclose accurate or complete information under this section, unless a finding is made that the award of the Procurement Contract to the Offerer/bidder is necessary to protect public property or public health safety, and that the Offerer/bidder is the only source capable of supplying the required Article of Procurement within the necessary timeframe. See State Finance Law §§139-j (10) (b) and 139-k (3).

The ECIDA must include a disclosure request regarding prior non-responsibility determinations in accordance with State Finance Law §139-k in its solicitation of proposals or bid documents or specifications or contract documents, as applicable, for procurement contracts. Attachment C entitled “Offerer Disclosure of Prior Non-Responsibility Determinations” must be completed by the Offer/Bidder and submitted to the ECIDA.

Public Disclosure

Responses submitted under this Request for Proposals are subject to public disclosure under the New York State Freedom of Information Law. If the respondent does not want certain data disclosed for any purpose other than for the evaluation of the submitted proposal, the respondent must prominently identify sections or pages of the response which they wish to have restricted. Such sections shall be restricted from disclosure, if allowed by law.

Contract Termination Provision

New York State Finance Law §139-k (5) provides that every procurement contract award subject to the provisions of State Finance Law §§139-k and 139-j contain a provision authorizing the ECIDA to terminate the contract in the event that the certification is found to be intentionally false or intentionally incomplete. This statutory contract language authorizes, but does not mandate, termination.

“Governmental Entity” and “procurement contract” are defined in State Finance Law §139-k (1). If a contract is terminated in accordance with State Finance Law §139-k (5), the ECIDA is required to include a statement in the procurement record describing the basis for any action taken under the termination provision.

ECIDA Termination Provision

Pursuant to New York State Finance Law §139-k(5), the ECIDA reserves the right to terminate any contract in the event it is found that the certification filed by the Offerer in accordance with New York State Finance Law §139k was intentionally false or intentionally incomplete. Upon such finding, the ECIDA may exercise its termination rights by providing written notification to the Offer/Bidder in accordance with the written notification terms of this contract.
